CLASS 6 LEARNING OVERVIEW – Summer 2026

English	Maths	Topic: **Planet Protectors**	Other Curriculum Areas	What You Can Do To Help Your Child This Term
Reading: Children will continue to develop their comprehension skills through detailed discussion of their reading, and there will be a clear focus on building inferences, reading between the lines of a text to help form meaning and opinions. The reading scheme will also aid their understanding and inference skills. Writing: Using what they have learnt from their reading, children will be looking at persuasive, advertising and narrative writing. SPaG: It is important that the children use accurate and appropriate spelling, punctuation and grammar in their work, as well as learning new rules and patterns for when various devices are used. **Advance Trip Notification** **Residential Trip- Overstrand Hall, Overstrand- 17th May- 20th May**	The children will spend the first 4 week focused on area, perimeter and volume, statistics, shape and position and direction, as well as revision of areas previously covered. After SATs, we will focus on maths themed projects, which will incorporate a range of mathematical areas. 	The children will be looking at all things environmental. History - Changes in the 20th Century Geography – Enough for Everyone- energy and the environment Art – Wildlife drawing-birds DT – product design and packaging Music – Music from the leaver's production Computing –Spreadsheets and blogging As always, if anyone has any questions or queries regarding the above please do not hesitate to contact me. Likewise, if any parents feel they have an expertise knowledge or particular interest in any aspect of what we are covering I would love to hear from you. MRS LJUBOJEV	Science - The main focus of the curriculum in our science lessons at the beginning will be looking at Scientists and Inventors. Children will engage in both practical and theoretical lessons and conduct research and experiments on the topics we cover. We will then move on to looking at Living Things and their Habitats. PE – The children will have games and PE lessons throughout the term. RE – The children will look at 2 units from the RE curriculum this term. MFL – Children will continue to develop their language in Spanish this year; written, aural and oral skills. PE PE will be on **Tuesday** and **Friday** this term, please ensure full kits are worn to school on these days.	As you are aware, the children will be sitting statutory assessments in the week of **11th May**. Whilst these shouldn't cause too much stress and anxiety, it is important that the children are prepared and know what to expect. Regular, short revision sessions at home of tricky areas should take place to enable children to reach their potential. Morning SATs revision sessions will resume on **Wednesday, 15th April** and the last session will be on **Thursday, 7th May**. The children should practice and learn their times tables fully and develop their mental maths skills. Furthermore, it is important that the children read each night and are regularly questioned on what they've read to help improve their comprehension. Finally, children should be encouraged to complete their homework fully and hand it in on time on a weekly basis. Similarly, when revision is set, it is important that the children are using the resources they're given to help them fully.
